
Connect to Eduroam – Android

Make a connection to WiFi-EDUROAM

EAP method: PEAP

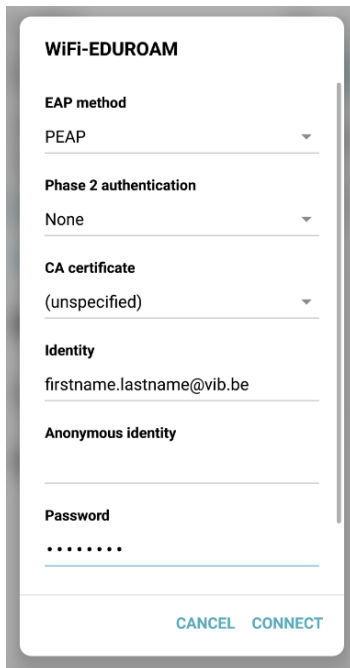

Phase 2 authentication: None

CA certificate: (unspecified)

Identity: [firstname.lastname@vib.be](#)

Anonymous identity: blank

Password: your VIB password

The image shows a screenshot of a mobile device's WiFi-EDUROAM configuration screen. The screen is titled "WiFi-EDUROAM" and contains several settings:

- EAP method:** A dropdown menu showing "PEAP".
- Phase 2 authentication:** A dropdown menu showing "None".
- CA certificate:** A dropdown menu showing "(unspecified)".
- Identity:** A text field containing "firstname.lastname@vib.be".
- Anonymous identity:** A text field that is currently blank.
- Password:** A text field with seven dots representing a masked password.

At the bottom of the screen, there are two buttons: "CANCEL" and "CONNECT".

Press Connect and you are now connected to the VIB Eduroam network
